

LIVERPOOL DISTRICT ADVANCE FUND

Report for the year ended 31 August 2013 as required under S O 963(3)

- 1** The schedule overleaf shows movements on the District Advance Fund for the year ended 31 August 2013. Income received was £105,482 from Connexional Priority Fund distribution, £49,435 from Circuit Model Trust Fund levies and £4,455 investment income. Payments in the year were £226,636, leaving a year-end balance of £186,856. From this balance grants of £171,241 had been approved to be paid by 2015. There is an unallocated balance of £15,615 at the year-end.
- 2** During the year five new grant applications were approved, totalling £152,920. Of this amount, £112,920 was for ministry projects and £40,000 for property projects. These amounts are in line with District grants policy. Grant awards continue to support projects with other income streams to most effectively utilise the limited District funds available.
- 3** During the year the District has made payments to thirteen ministry and one property project. There is much variance in the size, nature and location of projects, with many creative and innovative pieces of work being supported. A wide number of churches and circuits continue to be assisted in their mission activities, although it is noted that there are no applications being received from some circuits within the District.
- 4** There is no formal process for monitoring and evaluation of grant awards although presentations have been made by Liverpool City Centre Circuit to Resourcing Mission Group (RMG) and CASAI to Synod in recent years. Other projects in receipt of connexional assistance such as Liverpool City Centre (Somewhere Else) and Liverpool North Central (Mission and Evaluation in Deprived Communities) make annual monitoring and evaluation reports to Connexion, via the District Grants Officer thereby providing good feedback on those projects. Members of RMG provide update on other projects on an occasional or ad hoc basis.
